## SUMMARY

Senior Frontend Engineer with 6+ years experience developing, testing, and delivering responsive web and mobile applications using React, JavaScript, HTML5, and CSS3. Proven track record in revamping applications on tight deadlines, boosting user engagement and business outcomes. Expert in Agile methodologies and designing accessible, scalable UI with a strong focus on architectural improvements.

## EXPERIENCE

### Senior Frontend Engineer

Getbee

October 2022 - Present

- **Frontend Revamp & Delivery:** Led the revamp of the client-side application using React, delivering a complete redesign within a tight three-month deadline.
- **Business Impact:** Played a pivotal role in the company achieving its first sale by ensuring timely delivery and high-quality user experience.
- **Cross-Functional Contribution:** Recognized for impactful contributions beyond development, including recruitment, client support, and aligning software architecture with business goals.
- **Leadership & Promotion:** Promoted to a senior position for demonstrating leadership, ownership, and the ability to influence both technical direction and business outcomes.
- **Architectural Ownership:** Made key architectural decisions that accelerated development, improved system scalability, and enabled the team to meet critical delivery milestones.
- **React.js, Typescript, Tailwind, Node.js, Azure, Github, Figma, Azure AI Foundry, Javascript, HTML5, CSS3**

### Front End Engineer

AegisPeak

August 2020 - July 2022

- **Agile Development & User Engagement:** Contributed to building application components using Agile methodologies, resulting in a 300% increase in user retention.
- **UI/UX Enhancement:** Revamped pixel-perfect interfaces using React.js and Vue.js, integrated third-party libraries, and managed state through Redux to enhance performance and usability.
- **Backend Development:** Designed scalable RESTful APIs with Node.js and Express.js following MVC architecture, and implemented robust server-side applications using MongoDB and Mongoose.
- **Quality Assurance:** Applied a test-driven development (TDD) approach that significantly reduced bugs by up to 60%, improving overall software reliability.
- **Search & Data Visualization:** Built full-text search functionality using Elasticsearch and created insightful dashboards with Kibana for real-time data analysis.
- **DevOps & Cloud Infrastructure:** Managed AWS-based DevOps operations, leveraging microservices to optimize deployment and scalability.
- **Remote Collaboration & Innovation:** Volunteered in a globally distributed team, contributing to software design using modern, cutting-edge technologies.
- **React.js, Vue.js, Node.js, Electron.js, Material UI, Redux, Bootstrap, d3.js, HTML5, CSS3, Javascript**

### Web Developer

Selltime Pty Ltd

October 2018 - June 2020

- **Full-Stack Development:** Designed and developed scalable front-end architecture using Angular 2+ and built responsive, interactive user interfaces to enhance user experience across devices.
- **Backend Engineering:** Developed RESTful APIs and backend services using Node.js, Express.js, and MongoDB/MySQL, ensuring robust data handling and seamless integration with front-end applications.
- **Deployment & Infrastructure:** Managed application deployments on Microsoft IIS, streamlining delivery pipelines and maintaining production stability.
- **Design and API Collaboration:** Worked closely with team members to finalize design requirements and backend API mocks, facilitating iterative feedback and adjustments.
- **Mentorship:** Guided an intern through a front-end project, resulting in her successful transition to a Full-Time Employee (FTE).
- **Software Development Lifecycle (SDLC):** Worked in an environment with structured implementation of the full SDLC, contributing to each phase from planning to deployment and maintenance.
- **Angular, HTML5, CSS3, jQuery, Bootstrap, SCSS, Javascript**

## EDUCATION

### Bachelors in Information Technology

Punjab University College of Information Technology • 2018

## SKILLS

Front-end : Javascript, Node.js, React JS, Next.js, Typescript, Jest, React Testing Library, CSS3, HTML5, Redux, Git, React Native  
Other : Mentorship, Design Libraries, Project Management, Collaboration, Team work
